VP Abraham Lincoln Foundation
Tirana, Albania
December 1, 2010

To whom it may concern:

Abraham Lincoln Foundation in Albania, Tirana is a non-profit organization committed to Albanian development since 1997. It is governed by an American board of directors. All of whom are educators and organizational leaders (6 CEOs).

At present we offer instruction at three locations in Tirana, the capital of Albania. Some key business/organizational customers we have worked with are: Albanian staff of the American Embassy, AMC, Vodafone, USAID, Council of Ministers, Administration of Parliament of Albania, OSCE, Minister of Health, Minister of Education, Bailiff's Service, Faculty of Science, as well as various banks, teachers and directors of all High Schools of Tirana and several secondary schools.

It has been my pleasure to hire and interview Mr. Thomas Lombardi in 2010. He was hired to work with our Special courses for professionals in the English Language Program. During the time he worked with the Lincoln Center helped design the course for the Administration of Parliament of Albania financed by the OSCE. The course covered specific needs of English spoken by professionals in areas such as: administration, finance, and media. He taught this group during October – November, 2010, and we had very positive feedback from the clients. The clients asked to have the next level of the course with the same teacher because they were very satisfied.

During the time Mr. Lombardi worked and taught at the Lincoln Center, he was professional in communicating and working with course procedures. He showed a willingness to help with all tasks, including preparing the syllabus for the course.

I would highly recommend Mr. Lombardi for a position in your company or school and believe he would be a great asset.
