

Modelling Trust Requirements by Means of a Visualization Language

Innovative Informatics, School of Computing and Technology, University of East London, UK

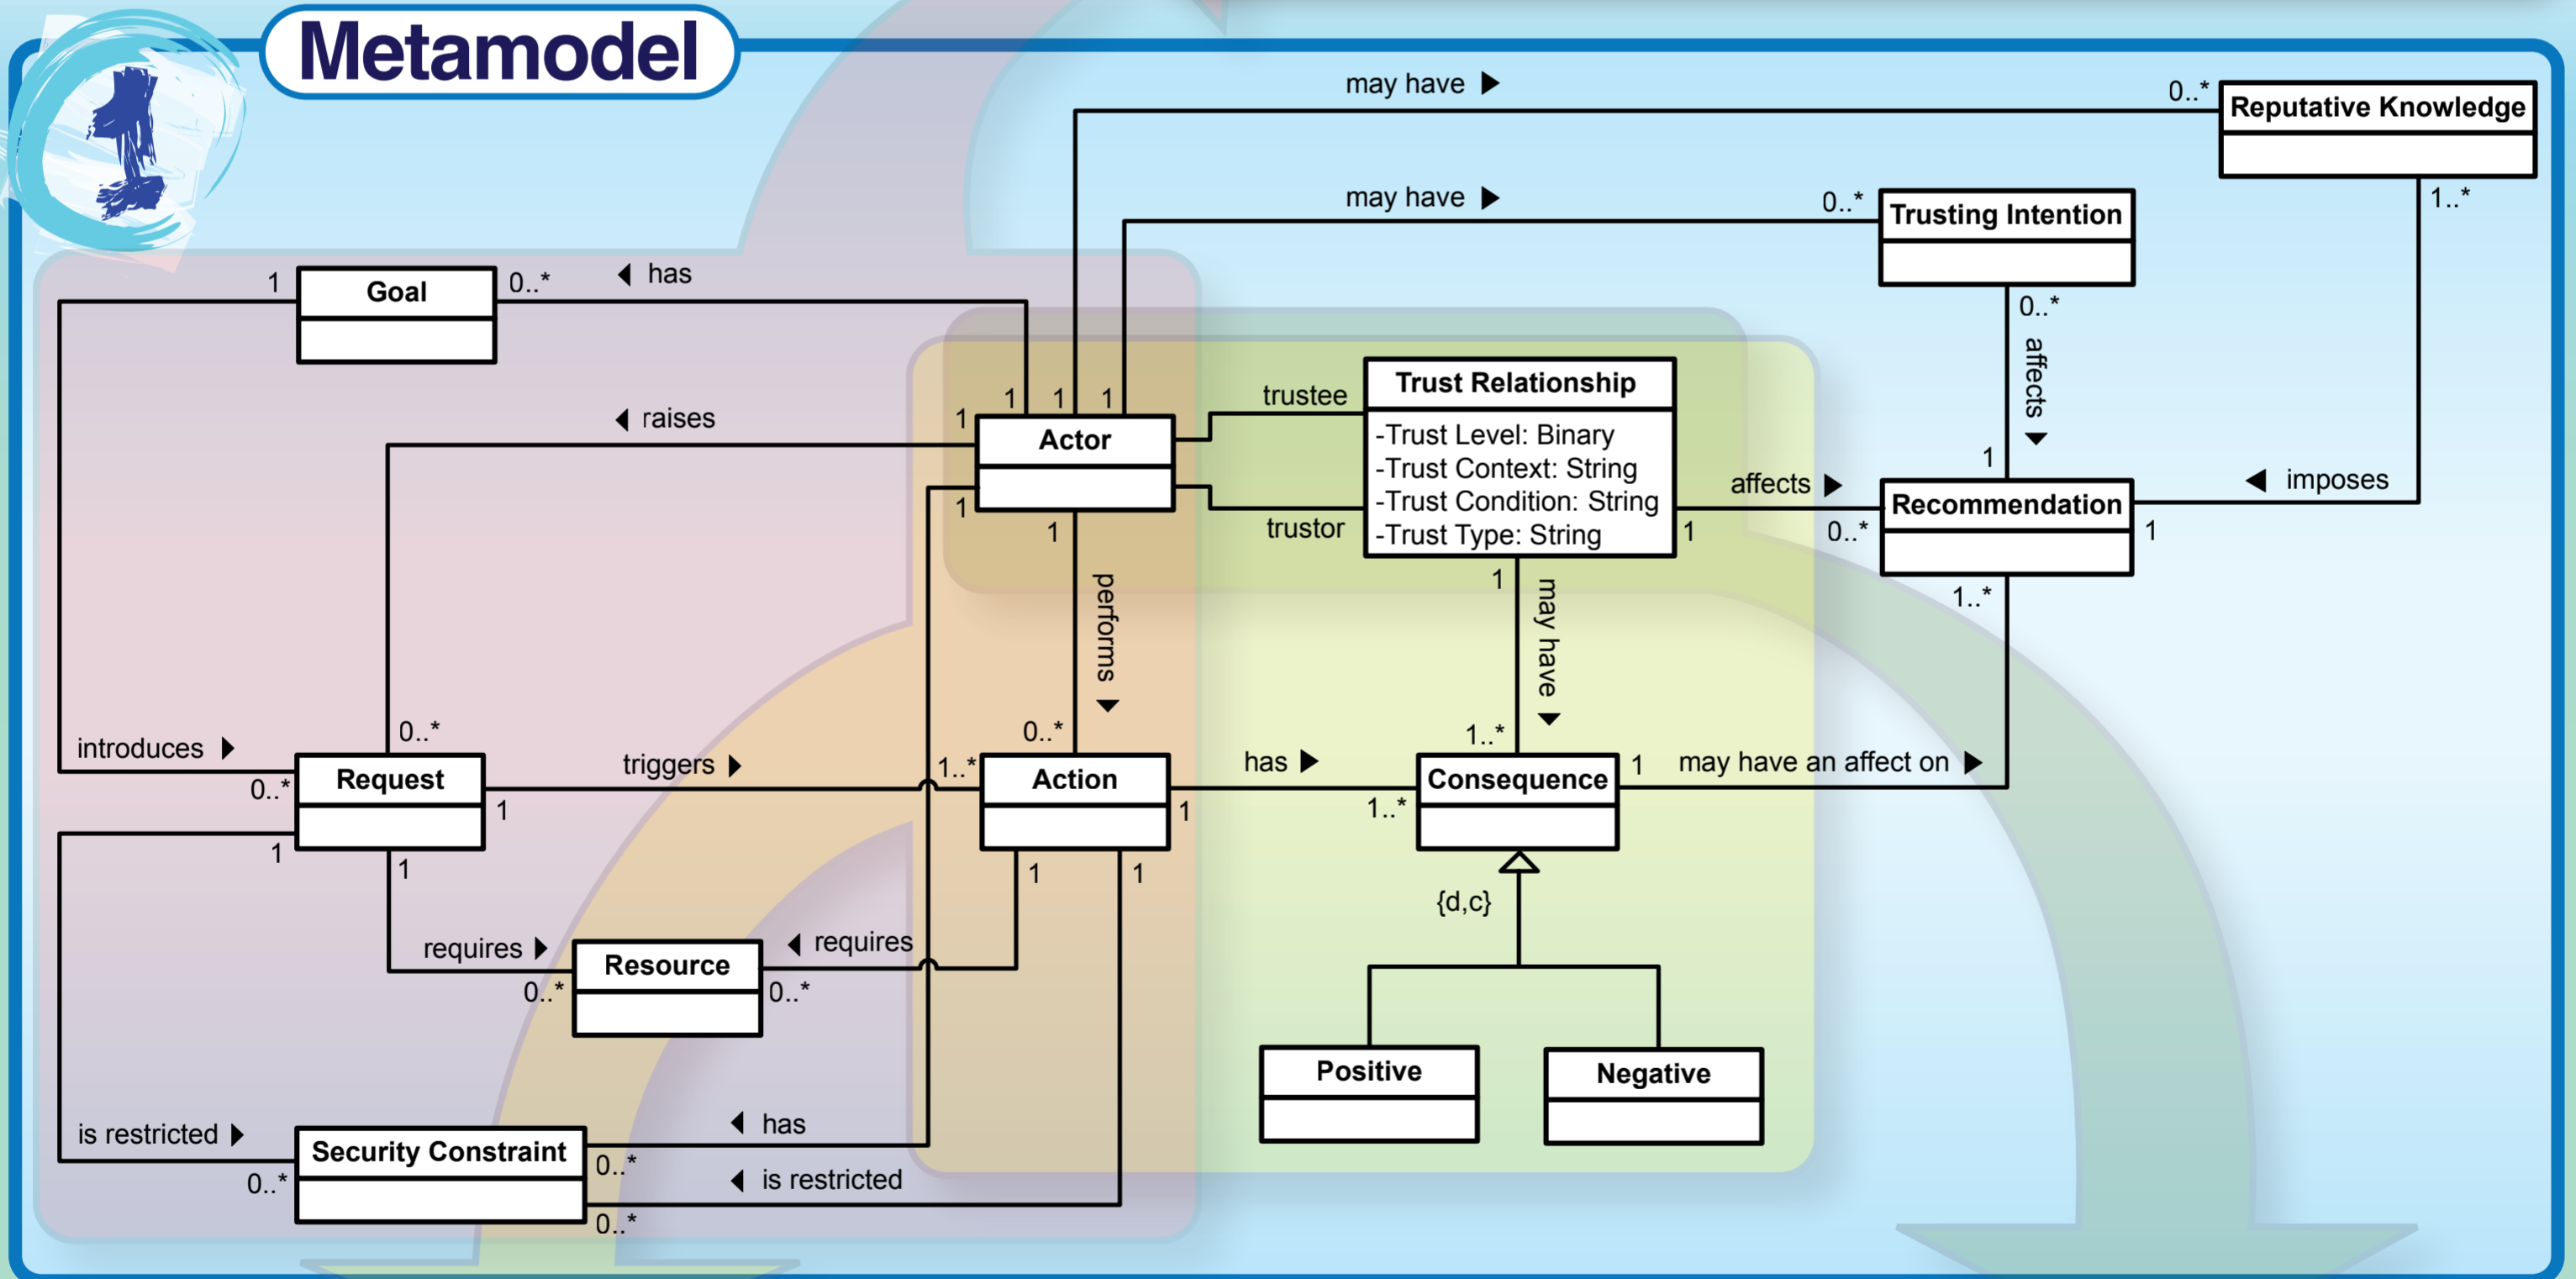

Kamaljit Kaur Bimrah, Haralambos Mouratidis, David Preston
 {bimrah, h.mouratidis, d.preston}@uel.ac.uk

AIM:

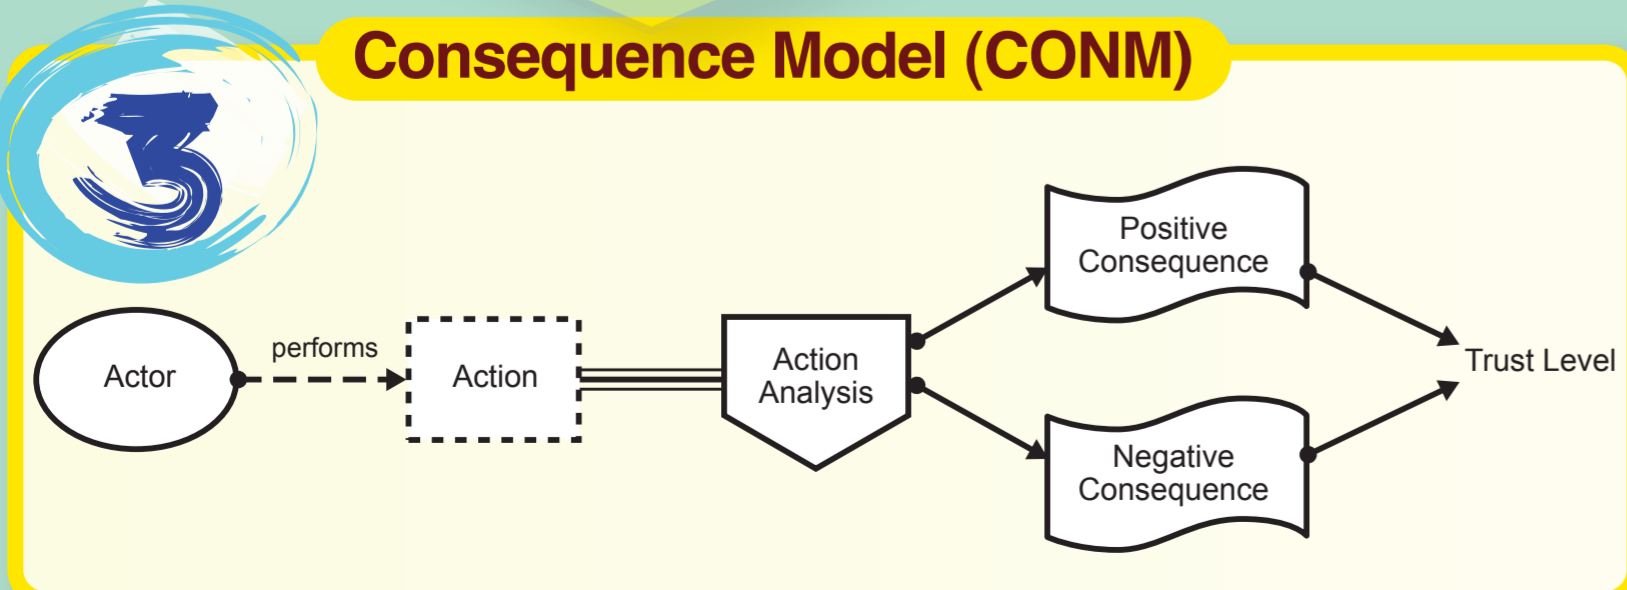

To develop a reasoning and modelling framework that will enable information system developers to consider trust and its related concepts collectively during the development of information systems.

Metamodel

Consequence Model (CONM)

Trust Relationship Model (TRM)
