Official Seal

The above supplementary transcript is a true copy of the courses, credits, and grades earned by the student who was enrolled in the designated overseas academic program. The form may also be used for reporting grade changes. Requests for transcript copies should be sent to the student's home campus - not to the administering campus. The State University of New York has coordinated all its overseas academic programs so that a qualified student from one campus may enroll in a program administered by another State University campus while remaining registered on his home campus. All SUNY overseas academic programs are approved initially and periodically reviewed by the administering campuses and by the Office of the Vice Chancellor for Academic Programs of the University's Central Administration.

Copy distribution:  
 Original and 1st and 2nd copies to student's home campus Director of International Education who will sign and forward the original to his campus Registrar and the 1st copy to the student's department, retaining the 2nd copy for his file.  
 3rd copy to student  
 4th copy retained by administering campus Director of International Education or Registrar.
